Puzzle

- Create a crossword puzzle using a free online puzzle maker.
- Use the following documents as your resources for your puzzle (located under the Marketing folder and subfolders on the website):
 - Product student handout

 - Price student handout

- Using the handouts listed above, design a puzzle that includes a minimum of 18 terms and definitions.
- Spelling is crucial! Do NOT misspell the terms or your puzzle will not work and you will be asked to redo it.
- If your term has more than one word, then do NOT put a space between the term and definition. You may use a dash for hyphenated words.
- Be sure to generate an answer key and save it or print it. You will be scoring other students' puzzles for accuracy.
- Some puzzles may require printing. Ask Mrs. Robinson for help with this.
- If your puzzle can be done electronically, then send the link via e-mail to at least 5 classmates in Business Principles.

- Each person in this class is required to complete three different puzzles. After completing the puzzle, return it to the person who generated the puzzle for grading (if on paper).
